## What is a Drop-In Assessment Clinic?

The Drop-In Clinic is a session for parents/carers who have concerns about their child's speech and/or language development. You will have the opportunity to discuss your concerns with a Speech and Language Therapist and/or Speech and Language Therapy Assistant. We will briefly assess your child, give you advice and agree a follow up plan if appropriate.

This service is for children with a West Essex GP.

**The Drop-In Clinic is for children who are preschool age. Reception children will be seen as part of the school-based service.**

**Please be aware we do not carry out assessments of eating and drinking in this clinic**

### What to expect?

- The Therapist/Assistant will find out about your child's needs through observation, play and/or informal assessment
- You will have the opportunity to discuss your concerns about your child with a Therapist/Assistant
- Please be prepared to answer questions about your child's general development
- We may offer you a further appointment if more information is required

## Children's Speech and Language Therapy Service

You may have to wait to be seen, depending on how busy it is. It is a 'first come...first served' system, therefore it is possible that if it is very busy you may be asked to come back to the Drop-In Clinic another day. If you arrive less than 15 minutes before the end of the session, you may not be seen due to time constraints.

### Please bring:

- Any other professional reports (e.g. Paediatrician, Occupational Therapy, Physiotherapy, other Speech Therapy reports, etc.)
- If an adult other than the parent is bringing the child please bring written proof of consent from the person with parental responsibility (e.g. Mother, Father, persons named on birth certificate, or social worker.)
